

SUMMER OPPORTUNITIES 2010

Architecture? Art? Writing? Leadership? Kayaking? Music?

What type of summer program will you choose to expand your mind and stretch your limbs? Information on summer program opportunities is beginning to arrive. Some programs are at local colleges/universities while others are in nearby communities or out of state. Summer materials are displayed in the Reading Room as they are received. Since there are only single copies, if you are interested, Ms. Campbell will copy materials for you. However, most have online registration.

Augustana Summer Academy! Augustana is offering 12 new mini-courses this summer, **aimed specifically at high school students after their freshmen, sophomore or junior year.** The programs (which range from one day to one week in length) may touch your passion, your search for a career, or just your desire to learn something new. See program titles below.

Registration is limited; students may find out about cost and register at www.augustana.edu/summeracademy.
